Insurance Services Europe

Tasks

Daimler Insurance Services is responsible for the insurance management within the Daimler Group, focusing its activities on the worldwide development of automotive insurance products. Daimler Insurance Services is also responsible for the corporate insurance and risk management of all Daimler production sites as well as for health insurance & pensions of the group employees in Germany.

The Insurance Services Europe (ISE) team focuses on developing retail automotive insurance in 21 European markets, steering the local insurance teams and supporting more than 180 colleagues on insurance topics throughout Europe.

In your new role you will join an international, diverse and open-minded team and support the markets in achieving strategic and ambitious financial targets for the region Europe (Ebit 2018 50 million plus).

Daimler Insurance Services Region Europe together with Mercedes-Benz Cars Region Europe & Mercedes-Benz Vans will implement a pan-european warranty program of harmonised product coverage and best customer experience across multiple markets.

This opportunity will support implementation of the programme with the business development team and then be responsible for the ongoing operational management of the programme in conjunction with the brandpartner, respective markets and insurer partner(s).

You tasks will be:

Working on an international, complex and cross divisional extended warranty project together with Mercedes-Benz Cars and Mercedes-Benz Vans.

Working closely with business development managers in ISE team on the new product/market (re-)launches planning and roll-out country reports and general country

communication.

Administer assigned (sub-region/country) projects.

Drive assigned project/work package(s) to develop and deliver our operational and strategic targets.

Engage with different stakeholders inside and outside of Daimler Group.

Work cross divisional on various topics.

Coordinate and prioritize different project related topics.

Translate, communicate and draft complex topics to the needs of different stakeholder.

Prepare, organize and follow up project related steering committees and meetings.

Qualifications

Education:

Completed university degree in business, economics, law, insurance qualification or similar education

Experience and specific knowledge:

Preferably several years in international insurance business/international environment in operational affairs
